

§ 290.23

housing projects disposed of by the Department in the immediately preceding fiscal year, and the extent of the disposition activity planned in the current fiscal year.

§ 290.23 Rebuilding.

HUD may provide project-based assistance to support the rebuilding of a HUD-owned multifamily housing project only. The required determination that rebuilding the project would be less expensive than substantial rehabilitation means that the costs to HUD for rebuilding are such that the monthly debt service needed to amortize the cost of relocating tenants, demolition, site preparation, rebuilding, operating expenses, and a reasonable return to the purchaser cannot be provided with rents that are within 120 percent of the most recently published Section 8 Fair Market Rents for Existing Housing (24 CFR part 888, subpart A), and would be less expensive than rehabilitation.

§ 290.25 Determination not to preserve a project or a part of a project.

HUD may determine to demolish, or otherwise dispose of, a HUD-owned multifamily housing project, or any portion of such a project, or to foreclose a HUD-held mortgage on a multifamily housing project, without ensuring its continued availability as affordable rental or cooperative housing for low- and very low-income families under appropriate circumstances which may include one or more those listed in paragraphs (a) through (g) of this section. If HUD decides not to preserve an occupied multifamily housing project at a foreclosure sale or sale of a HUD-owned project, tenants must be provided relocation assistance as described in § 290.17.

(a) The costs to HUD of rehabilitation are such that the monthly debt service needed to amortize the cost of rehabilitation, operating expenses, and a reasonable return to the purchaser cannot be provided with rents that are, for subsidized and formerly subsidized projects, within 120 percent of the most recently published Section 8 Fair Market Rents for Existing Housing (24 CFR part 888, subpart A) or, for unsubsidized

24 CFR Ch. II (4–1–00 Edition)

and formerly unsubsidized projects, within rents obtainable in the market.

(b) Construction is substantially incomplete.

(c) Preservation is not feasible because of environmental factors that cannot be mitigated by HUD or the purchaser. For example, when the project is located on a site that cannot be made to comply with the Section 8 Site and Neighborhood standards in 24 CFR 886.307(k) because of factors that adversely affect the health, safety and general welfare of residents such as air pollution; smoke; mud slides; fire or explosion hazards. Preservation may also be infeasible because of significantly deteriorated surrounding neighborhood conditions with inadequate police or fire protection; high crime rates; drug infestation; or lack of public community services needed to support a safe and healthy living environment for residents.

(d) HUD determines the project is unfit for rehabilitation.

(e) Rehabilitation would cost more than constructing comparable new housing.

(f) A reduction in the number of units in the project will enhance long-term project viability, for example, demolition of a building to provide space for a playground, open space, or combining one-bedroom units to create larger units for families.

(g) Continued preservation of the project as rental or cooperative housing is not compatible with State or local land use plans for the area in which the project is located.

§ 290.27 Up-front grants and loans.

(a) *General.* HUD may provide up-front grants and loans for rehabilitation, demolition, rebuilding and other related development costs as part of the disposition of a multifamily housing project that is HUD-owned, upon making a determination that such a grant or loan, plus any additional project-based assistance made available, would be more cost-effective than the use of the maximum permissible project-based rental assistance alone.

(b) *Eligible projects.* An up-front grant or loan can be made available in the

sale of a HUD-owned multifamily housing project that meets all of the following requirements:

(1) Has more than 50% of the units in the project occupied by very low-income residents at the time a disposition plan is approved by HUD, or that HUD determines is essential, as affordable housing, to the revitalization of its community;

(2) Is located in a housing market or submarket in which there is not sufficient habitable, affordable, rental housing, as defined in § 290.3;

(3) Will generate, after rehabilitation or rebuilding, sufficient rental income in a competitive market to cover all operating expenses, meet after sale debt service requirements, fund required reserves and throw off positive cash flow;

(4) Will provide affordable housing for at least 20 years or the term of the loan, whichever is shorter, after the rehabilitation and/or rebuilding is completed; and

(5) Meets such other requirements, including deed restrictions, loan provisions, and monetary penalties for non-performance, as HUD may determine are appropriate on a case-by-case basis.

(c) *Eligible sales and purchasers*—(1) *Negotiated sales to governmental entities.* A negotiated sale of a project with an up-front grant or loan can only be made to the unit of general local government, which includes public housing agencies, in the area in which the project is located; or a State agency designated by the chief executive officer of the State in which the project is located; or an agency of the Federal government. The governmental entity in such a sale must take title to the project.

(2) *Other sales and purchasers.* All sales which provide up-front grants or loans to entities other than those described in paragraph (c)(1) of this section must be conducted through a competitive selection process. All general and limited partnerships or their nominees, joint ventures or other entities assembled for purposes of purchasing the project and which have a governmental entity as a partner or other participant are considered profit motivated purchasers and not governmental entities, whether or not there is a non-

profit, public, corporate or individual general partner.

(d) *Up-front grant or loan amount.* The maximum that HUD will fund per project in an up-front grant or loan is 50 percent of total development cost (TDC), or \$40,000 per affordable, finished unit, whichever amount is less. TDC covers demolition, environmental hazard remediation, construction materials, artisan services, professional services, developers services, and overhead, relocation and operating losses that are incurred to plan, perform and complete repairs or rebuilding.

Subpart B—Sale of HUD-Held Multifamily Mortgages

§ 290.30 General.

(a) Except as otherwise provided in § 290.31(a)(2), HUD will sell HUD-held multifamily mortgages on a competitive basis. HUD retains full discretion to offer any qualifying mortgage for sale and to withhold or withdraw any offered mortgage from sale. However, when a qualifying mortgage is offered for sale, the procedures set out in this subpart will govern the sale.

(b) References in subpart B of this part to mortgages securing subsidized projects include HUD-held purchase money mortgages on subsidized projects.

[61 FR 11685, Mar. 21, 1996, as amended at 61 FR 32265, June 21, 1996]

§ 290.31 Sale of current mortgages securing subsidized projects.

HUD will sell current mortgages securing subsidized projects, as follows:

(a) *Current mortgages with FHA mortgage insurance* will be sold either:

(1) On a competitive basis to FHA-approved mortgagees; or

(2) On a negotiated basis, to State or local governments, or to a group of investors that includes an agency of a State or local government if, in addition to meeting the requirements of the Statute, the sales price is the best price that HUD can obtain from an agency of a State or local government while maintaining occupancy for the tenant group originally intended to be
